She also noted that Streetsville was very efficiently run with the assistance of volunteers to the extent that it was able to give the City of Mississauga a surplus of \$85,000 when it amalgamated in 1974. The Mayor acknowledged many key volunteers who provided their services to run the Town of Streetsville. Also, Mayor McCallion acknowledged former Mississauga Councillors David Culham and Ted Southorn for their contribution in preserving the small town appearance of Streetsville while allowing it to grow. **6. DEPUTATIONS**

(a) Share a Memory of Streetsville

The following members of the audience spoke of their memories of Streetsville:

- (i) Gordon Bentley provided several anecdotes of his life in Streetsville, noting that he was born in Streetsville, this room being his high school and ironically, he met his wife in this same room and now enjoys his retirement in Streetsville. He noted that Streetsville in the 1930s had a population of about 635 people. He shared some of the landmarks and also talked about life in the 1930s, post war. Mr. Bentley rose to become the Deputy Fire Chief, however, he began his career volunteering, reminding that there were some significantly large fires in the 1930s. At the time, there was need for organization and equipment. A Fire Hall with water access was then built, with a truck purchased in 1939. This antique truck is now used for parades in Streetsville.

Mr. Bentley closed stating that Streetsville was very rich in history and he was proud to be born, raised and now enjoy his retirement in Streetsville.

- (ii) Jim Graham, Deputy Reeve, Town of Streetsville, spoke about Vic Johnston who in 1973, had been asked to create a baking oven for the Streetsville Bread and Honey Festival which drew the community together when bread was baked. He also noted that this room was also used for the Works Committee meetings for the Town of Streetsville.
- (iii) Bill Appleton, Reeve, Town of Streetsville, spoke about his memory on Council in this very room. He spoke about the informal Council meetings that used to be held.
- (iv) Ted Southorn, Councillor for Ward 9 in the City of Mississauga, recalled four elections, when the All-Candidates meetings were held in the same room. Mr. Southorn spoke about the unique community pride that existed and has been entrenched in Streetsville, adding that local companies used to provide their fares to the Streetsville Bread and Honey Festival, the flour came from Reid Milling and honey came from local beekeepers.

Mr. Southorn acknowledged a previous Planning Commissioner, Mr. Russ Edmunds, for writing development guidelines which preserved Streetsville. The Province of Ontario approved the Business Improvement Area Act which further allowed improvements to be made to enhance and maintain the history of Streetsville. Mr. Southorn closed commending the 150<sup>th</sup>. Anniversary Organizing Committee for their pride in their community.

- (v) A representative of the Veteran's club and another individual who did not disclose their names also spoke briefly about their memories of Streetsville.
- (vi) Bernice Cunningham, Chair, 150<sup>th</sup>. Anniversary Organizing Committee, complimented the team she worked with including City staff member Derek Allen and Councillor George Carlson who helped with the book sale.
- (vii) Each Member of Council provided their congratulatory comments on this auspicious meeting and complimented the organizing committee for very successful 150<sup>th</sup>. Anniversary celebrations. Mayor McCallion acknowledged the absence of Councillors Maja Prentice and Sue McFadden who were ill and Councillor Carmen Corbasson who was attending two funerals that day, on behalf members of Council.

Mayor McCallion provided many anecdotes and memories of her life as Mayor of Streetsville. She spoke of how the area residents did not wish to become part of the new Regional Government as proposed by the then Premier Bill Davis because they wanted to maintain the small town identity and not disappear into the larger City of Mississauga. Mayor McCallion spoke about several important discussions and decisions during Council and Committee meetings in this room, on major issues affecting Streetsville including one regarding the Mullet Creek diversion and the construction of the dissipater in Streetsville that would benefit the area south of Streetsville in the Town of Mississauga, allowing those lands to be developed. The Mayor spoke of how her tie breaking vote in an effort to work cooperatively with her Mississauga neighbours, allowed this decision and other similar ones to occur, adding that it was in this room that after lengthy debate, many landmark decisions were made.

Mayor McCallion concluded stating that Mississauga is a City of several communities as identified on the walls of the current Council Chamber and Council has made every attempt to maintain the spirit of these communities as they have in Streetsville, Clarkson, Port Credit, Malton, etc.

- (viii) Councillor George Carlson thanked his Executive Assistant, Bradley Stoll and his Administrative Assistant, Kimberly Duarte, for their assistance in organizing this event.

### (i) Goreway Drive Grade Separation

Councillor Eve Adams expressed concern with delays by CN Railway in providing a definitive time frame for the construction of the Goreway Drive Grade Separation. She asked the Commissioner of Transportation and Works to work with the City of Brampton on this project as the community is anxious to have this project underway. She also noted that the Environmental Assessment has been completed and there are no appeals.

Martin Powell, Commissioner, advised that the CNR was still in the process of acquiring required property and there are a number of properties that need to be acquired for this grade separation. He advised that the City has set aside the funding to undertake this project however, the City of Brampton is taking the lead on it.

Also, Mr. Powell advised that staff are working with the CNR with respect to rubberized crossings on Scarboro Street. The issue of appropriate fencing was also raised. Martin Powell explained that CP Rail pays half the maintenance for the fencing and they are trying to get the CNR to do likewise.
