## 1. **CALL TO ORDER**

The meeting was called to order at 9:07 a.m. by Mayor Hazel McCallion, with the saying of the Lord's Prayer.

Mayor McCallion also requested one minute of silence to pay respect to Trooper Marc Diab, 22, of Mississauga who was killed when a roadside bomb exploded north of Kandahar City on March 8. Marc Diab is Canada's 112th soldier to die in Afghanistan since 2002. On behalf of the Mayor and Members of Council, Mayor McCallion extended her heartfelt condolences to his family, adding that he was a hero and paid the ultimate price.

**(b) 2008 Campaign Spirit Award: Outstanding Leadership Giving Campaign Award**

Shelley White, Chief Executive Officer, United Way presented a 2008 Campaign Spirit Award in the category of Outstanding Leadership Giving Campaign to Crystal Greer and Theresa Kramer, Co-Chairs of the City of Mississauga United Way Leadership Campaign. Ms. White advised that the City of Mississauga led a role model campaign and were being awarded the 2008 Campaign Spirit because it demonstrated best practices.

Also, Ms. White advised that the Board of Directors approved their 2009 Work Plan which included a cost of living increase to address the increase in demands. She urged that there is a more than ever before need in the community. Monthly reports are being prepared so that the needs are monitored and short term support can be provided. Mayor Hazel McCallion requested that the information be shared with the City as the City too has embarked on initiatives to address the needs of those who cannot afford program fees.

Ms. Michelle Glowoski listed the private sector who donated prizes or sponsored events and handed out congratulatory plaques and certificates to the representatives of these companies in attendance at council.

## 6. DEPUTATIONS

### (a) New Initiatives of the Mississauga Hockey League

Lawry Simon, one of the Volunteer Directors of the Mississauga Hockey League (MHL), addressed Council to speak on the new initiatives of the Mississauga Hockey League titled "Creating a Model Program for Minor Hockey that partner with the community and the municipality in shared goals." Using a power point presentation, he explained the vision for the MHL including their program for underprivileged children, introduction of hockey to new immigrants, coaching the coaches, etc. He also noted that in their vision, they wished to focus on verbal abuse, increase safety and discipline. Mr. Simon explained their communication and marketing strategy, increasing sponsorships and revenue streams. Finally, he explained their relationship with the City of Mississauga and explained how the partnership was even more strengthened.

Councillor Frank Dale complimented the Mississauga Hockey League, their coaches, parents who show support, as well as the new initiatives of the MHL. He expressed support for the good coaching stating that coaches give back to the community and hockey helps to develop life long friendships.

Councillor Katie Mahoney welcomed the introduction of hockey to new Canadians especially given the multi cultural diversity and invited the deputant to contact her office for any additional assistance he may need. She also suggested that the City could partner with other groups in a similar way to promote other types of sports in Mississauga.

Councillor Carolyn Parrish noted that Mayor McCallion was acknowledged for her role in Women's Hockey when she received the Order of Canada. Also she suggested that the MHL contact Enersource and other similar organizations as they are major sponsors of such sports. Councillor Parrish also complimented the staff who came up with the idea of renting skates and suggested to the deputant that he stay connected with staff.

Councillor Eve Adams spoke about the Malton Arena which was recommended for closing. She noted that Malton has a very large new immigrant population who may find it expensive to participate in hockey. She noted that the Malton Arena had bins for used skates and this is an excellent way for children to decide if they wish to continue with the sport without incurring huge costs.

Mayor Hazel McCallion stated that she receives complaints from parents as they have to pay to watch games as well as practise events. It has also been brought to her attention that the girl's leagues do not charge. She also expressed disappointment that there are unpleasant issues because of parents in attendance at the games.

Mayor McCallion also advised that she wrote to the Ontario Hockey League with respect to fighting and was particularly saddened that a young player died as a result of a fight. She suggested that as an encouragement, groups be given awards or plaques for lack of fighting or penalties. Further, the Mayor commended the volunteers who share their time and talent to the wellbeing of children and sports.

(b) Safe City – Neighbours Night Out

Ashley Lyons, Programs Manager, Safe City Mississauga addressed Council with respect to an event on June 16, 2009 - 'Neighbours Night Out' and introduced the Neighbourhood Knights who also spoke about their role in keeping Mississauga safe. A photograph with Mayor McCallion and the Knights was taken. Members of Council were presented with 'Hero' pins as well.

Ms. Lyons explained the event, stating that it was free to register and participate in the event which is designed to heighten crime prevention. Ms. Lyons advised that they have met with the Chief of Police who has suggested that they work with the youth. Safe City was requested to provide all members of Council with brochures so that Councillors could send them out to their ratepayer organizations to create further awareness of the event.

Councillor Carolyn Parrish requested that this group join them in Canada Day plans.

(c) Downtown 21 – Update on the Framework Plan

Marilyn Ball, Director, Planning and Building Department, introduced the Downtown 21 project which was kicked off in February and introduced Ian Lockwood, the Lead Consultant on the project. She noted that on March 12, 2009, a second public participation event will be held.

Mr. Lockwood presented an update on the framework plan as it relates to Downtown 21 and some of the start-up ideas received to date. Using a power point presentation, Mr. Lockwood explained the plans for the downtown core, noting that the study was broken up into a broad influence area, a downtown area and a focus area right in the City core. He felt that the current blocks within the core were too large and if it were to become vibrant, there was a need to create smaller blocks to facilitate walking. Also, currently, the larger blocks carry more traffic but with smaller blocks, the streets are closer and hence traffic is spread out further, adding that walkable streets create vibrancy. He also explained the options for transit service to the downtown core, stating that there was a need for at least 6 stations allowing for a 400 metre walking distance to each station in order to capture as much of the downtown as possible within a convenient walk. He also showed two options for the BRT station, noting that the downtown station option would encourage land uses to grow.

Mr. Lockwood also explained the green layer which comprised of trails, parks and connections. These layers were imposed over the current road patterns and land uses to demonstrate what the City Core could ultimately look like.

Further, Mr. Lockwood stressed an urgency to get Council's support on the plans as he did not feel that Council should wait until the LRT is built. He suggested that the focus area was more urgent i.e. the area across from Square One as a number of studies are already in place. He felt that creating an approximately 300 ft. main street as suggested in this area would also attract employment.

Councillor Frank Dale expressed his support for the project and the process to date, particularly the idea of focussing on creating a main street. He concurred that the focus area was large and moving people around within the City core has always been a challenge. The Councillor explained that planned prime office development did not occur within the City core and he was very supportive of the temporary recreation uses which resulted in the creation of the uses on the north side of Rathburn Road and provided assessment revenue as well as created employment on lands which may have remained vacant for a while.

Councillor Nando Iannicca expressed concern that time of was the essence and that the residents wish to know what is being done in the next 3 – 5 years rather than waiting for other things to fall into place. He felt that there was a need to show some tangible public space, i.e. park benches, tree plantings, etc., adding that there may also be merit in creating a land trust. Further, he pointed out that outside of the 3 truly winter months, the remaining 9 months of the year were no different than other big European cities. The Councillor pointed out that the need to develop the City core was significant as it was vital to have a vibrant downtown core.

Councillor Pat Mullin pointed out that coming into the City core from the north via Confederation Parkway was incredible and was pleased that the City was also looking simultaneously at the cycling master plan. She suggested that Mr. Lockwood submit the slide with bike lanes to the Mississauga Cycling Advisory Committee for their information and comment. Also, she hoped that eventually the Province would dictate greening wherever there is an opportunity.

Further, Councillor Mullin noted that in every big city, there was a central park which was a focal point to the core and enquired how this could occur. She was advised by the consultant that the City had an open space strategy within the City core with several parks which will be integrated as part of the plan. He explained that he envisioned a series of smaller public spaces within the core but are looking for opportunities at other locations within the boundaries of the study area.

Mayor Hazel McCallion stated that the plans for amenities such as community centres, etc. are based on population and noted that no studies have been undertaken for amenities to serve the existing and proposed population within the city core as per standards for any other part of the City. She felt that community needs should not be neglected and advised that she has asked staff to bring forward a report in this regard. Mayor McCallion also noted that in other parts of the City, they owned the land and were able to build the facility, however, in the City core, the cost of land is very high and hence there is a need to depend on developers. Staff advised that a Corporate Report with respect to the Civic Square, its connections, My Mississauga, etc. is being prepared to update Council in the near future.

Further, Mayor McCallion advised that she met with the Prime Minister on March 10, 2008 and suggested to him that he use the same formula as the gas tax to distribute the infrastructure monies so that every municipality gets some share. Also, she advised that improvements to the City Core have been advanced because of the Federal Infrastructure Program, adding that the City will be ready with the plans once the money is approved.

Councillor Carolyn Parrish agreed that this project should be phased in but stressed the importance of setting priorities, particularly in light of the current economy, adding that housing, transportation and job creation should be high on the list.

- (d) SUPPLEMENTARY REPORT - Rezoning Application to permit multi-unit retail and service commercial uses, 820, 824 and 840 Britannia Road West, southeast quadrant of Britannia Road West and Latimer Drive, OZ 05/033, W6

Mr. Anil Sharma and Hareesh Bhargav, unit owners of the plaza located at 808 Britannia Road West addressed Council with respect to Rezoning Application to permit multi-unit retail and service commercial uses, 820, 824 and 840 Britannia Road West, southeast quadrant of Britannia Road West and Latimer Drive, OZ 05/033, W6. They advised that they met with Mayor McCallion, Councillor Carolyn Parrish and Orlando with respect to their request for an access through the above Orlando lands. On behalf of their condo owners, they thanked all for their assistance in addressing the access issue.

Mayor McCallion advised that as she stated during the meeting, she will make a request to the Region of Peel to consider a left in access, however, that decision will be up to the Region of Peel as the access would be very close to a major intersection. She also advised that she will be meeting with representatives from the Orlando Corporation to see how they can assist; however, the condo owners were provided three options for consideration.

Councillor Parrish thanked Orlando Corporation and City Traffic Department staff for attempting to resolve this matter and looking at the options given by Orlando. She reiterated that the three options offered at the meeting, be taken to the condo board for consideration as some of the options involved costs. The Ward Councillor advised that she would move the staff recommendation so that Orlando could proceed with the development process.

7. **PUBLIC QUESTION PERIOD** (in accordance with Section 36 of the City of Mississauga Procedure By-law 0421-2003 - Council may grant permission to a person who is present and at Council and wishes to address Council on a matter on the Agenda. For any other matter, leave must be granted by Council to deal with a matter not on the agenda).

- (i) Mr. Thomas Wall, resident, Ward 9, addressed Council and spoke about his views with respect to aggression as mentioned in the deputations relating to hockey and speeding.

PR.09

- (ii) Ursula Keuper-Bennett made reference to a meeting on Youth Violence held at the Erin Mills United Church where Councillor Mahoney was in attendance. She asked how many elected officials had read at least the Executive Summary of a report prepared by Alan Curling on Youth Violence.

PR.09

- (iii) Darrel Carvalho, resident, addressed Council with respect to his comments on the Automated Speed Camera Program (Information Item 1-17). He stated that he wrote in because he found some inconsistencies that needed to be addressed. He made reference to two people who died on Rathburn Road as a result of speeding/racing, adding that there was a hill coming westerly from Dixie Road and snowbanks hindered visibility.

Mr. Carvalho commended the report and was pleased to hear that it was being considered with safety in mind and not the revenue; however, Mr. Carvalho concurred that costs and increase in taxes were an important consideration, he hoped that the Province would fund it as a pilot project without it impacting the taxpayer.

R-2 Automated Speed Camera – Business Case

Report dated February 26, 2009 from the Commissioner of Transportation and Works with respect to Automated Speed Camera – Business Case

RECOMMENDATION

1. That the report entitled “A Request for Approval to use Photo Speed Enforcement Technology to Protect Lives and Reduce the Risk of Injury on Roads in the City of Mississauga”, dated March 2009, be endorsed by Council as the basis of a request to the Province of Ontario to permit an Automated Speed Camera pilot program in Mississauga.
2. That the two year start-up costs estimated at \$550,000 as detailed in the report entitled “Automated Speed Camera – Business Case”, dated February 26, 2009 be approved in principal, subject to a positive response from the Province of Ontario to permit the use of automated photo speed enforcement in Mississauga.
3. That Mayor McCallion and appropriate staff present the report entitled “A Request for Approval to use Photo Speed Enforcement Technology to Protect Lives and Reduce the Risk of Injury on Roads in the City of Mississauga”, dated February 26, 2009 to the Premier of Ontario, the Minister of Transportation Ontario, and the Attorney General with a request to permit automated photo speed enforcement pilot project in Mississauga.

Mayor Hazel McCallion expressed concern with the cost of \$87,000 for the study and overall cost to implement the Automated Speed Camera project. She wished to bring attention that the project would not generate revenue as it was intended to reduce speeding resulting in people driving slower. Mayor McCallion expressed her concerns that projects listed in the budget were removed or deferred to keep the tax increases to a minimum and noted that this project had bigger implications including the possibility of appeals and will have an added impact on the budget. Further, the Mayor enquired if speed limits posted on city roads were appropriate and was advised that are being revisited.

Councillor Pat Saito explained that the business case had received council approval and the Safe Driving Committee was directed by Council to proceed with bringing forward a business plan for the automated speed camera program which is different from the photo radar program. She acknowledged that it was a very expensive project with set up and implementation costs and was not intended to generate revenue but as a safety measure to reduce speeding, adding that if there was revenue from the project, it was intended to go back into traffic safety programs. Also, Councillor Saito reminded that staff had updated Council in 2008 and with Council support, proceeded to bring forward the business case.

Further, Councillor Saito pointed out that the report indicated that in jurisdictions where photo radar has been used, it had reduced speeding and hence saved lives. She stressed that if this program is considered to be successful, it will not generate revenue which is the ultimate goal in reducing speed. Further, the Councillor stated that she and Councillor Corbasson sit on the Safe Driving Committee whose mandate has been to implement safe driving programs and this is one more tool. She explained that staff were conservative in their funding projections and that this was a long term program.

Further, Councillor Saito explained the purpose of the report stating that the business case was being presented to Council at this time with a request for the Mayor to meet the Province and that council approve the start up funding subject to the Province approving the use of automated speed cameras in Mississauga.

Martin Powell, Commissioner, concurred that this was a costly project, it would be challenged; however, unless the program was put in place, its outcome was unknown. He concurred that if the program was working as planned, it would not generate revenue.

Councillor Pat Mullin felt that the cost was minimal if it reduced speeding in residential neighbourhoods and promoted safety. She also asked staff to comment on the e-mail from the resident (Information Item – I-17). Andy Harvey, Project Manager, explained some of the issues raised, adding that there will be education on the program prior to implementation. Mr. Harvey also pointed out that based on test sampling, there is a speeding problem in residential areas especially in school zones.

Deputy Chief of Police Paul Tetzlaff addressed Council to express Peel Regional Police support for the automated speed camera program. He clarified that Peel Regional Police would take on a consultative role but would not be operating the equipment. Also, he clarified that in Mississauga, people would be made aware of where the red light cameras will be located allowing for enough warning and if they still do not adhere to the speeds, they will be ticketed.

In response to a question by Councillor George Carlson as to whether the Province was willing to become involved, Mayor McCallion explained that the staff recommendation requests that the City make a presentation to the Province to allow Mississauga to implement the program as a pilot project.

Councillor Carolyn Parrish expressed concern that the project could cost \$6 million when staff have been asked to further cut back items in the budget including road improvement projects and library hours. She felt that if the Province was interested, they should recommend that the City implement it as a pilot project. The councillor expressed concern that the current economic environment was not the appropriate timing to initiate this project and suggested that it be re-evaluated in a year.

Councillor Eve Adams stated that she had grave concerns with the costs and could not support the staff recommendation of approval of the start up costs at this time as the costs were significant.

Discussion took place on how to deal with the recommendations in report. It was suggested that the report be received until the Province was ready to approve the project.

Councillor Pat Saito felt that staff needed to be given clear direction and receiving the report was not adequate. Also, there was a need for the Mayor to speak with the Premier on this matter and that direction was a recommendation in the Corporate Report. She pointed out that staff from several departments have spent considerable time on this project, adding that costs were previously brought to Council with the project being phased in.

In response to comments made by Councillor Saito, Councillor Eve Adam raised a point of personal privilege, stating that she has spoken against the project at the public meeting held on this matter and requested clarification that no further monies will be spent on the program. Martin Powell, Commissioner, confirmed that other than staff time with respect to presenting the matter to the Province, no monies will be spent on this project.

Councillor Saito suggested that the Mayor meet with the Province to seek approval to allow Mississauga to implement the Automated Speed Camera program as a pilot project with the hope that they will fund the project.

Councillor Pat Mullin amended the staff recommendation to receive the above report and that the Mayor be requested to meet with the Premier, Minister of Transportation and the Attorney General, to request the Automated Speed Camera as a pilot project.

UB-1 Procurement #FA.49.359-07 – Contracted Services Toronto Transit Commission Routes 32B and 58B (Ward 5)

Corporate Report dated January 23, 2009 from the Commissioner of Transportation and Works with respect to Procurement FA.49.359-07, contracted services, Toronto Transit Commission – Routes 32B and 58B.

RECOMMENDATION

That the Purchasing Agent be authorized to increase the upset limit for contract #4600010321 for the provision of cross boundary transit services by the Toronto Transit Commission from \$610,286 to \$1,267,870 to cover outstanding 2008 invoices and forecasted costs to December 31, 2009.

The above matter was referred to Council from General Committee on March 4, 2009 without a recommendation to allow staff to provide the Ward Councillor with additional information.

Councillor Eve Adams explained that the TTC enhanced the service but it did not get too many people using it.

Martin Powell, Commissioner, explained that there are costs already incurred and they have cut back the service, however, eliminating it would create inconvenience. He also suggested that it was an issue for Metrolinx to address as part of integration of service. Also, he pointed out that the service was enhanced without consultation with Mississauga and they are working to put a formal agreement in place.

UB-2 Rezoning Application to Permit Multi-Unit Retail and Service Commercial uses 820, 824 and 840 Britannia Road West

Corporate Report dated January 27, 2009 from the Commissioner of Planning and Building with respect to a Rezoning Application to permit multi-unit retail and service commercial uses 820, 824 and 840 Britannia Road West, Southeast quadrant of Britannia Road West and Latimer Drive.

RECOMMENDATION

That the Report dated January 27, 2009, from the Commissioner of Planning and Building recommending approval of the application under File OZ 05/033 W6 Phase 2, Orlando Corporation, 820, 824 and 840 Britannia Road West, southeast quadrant of Britannia Road West and Latimer Drive, be adopted in accordance with the following:

1. That notwithstanding that subsequent to the public meeting, changes to the application have been proposed, Council considers that the changes do not require further notice and, therefore, pursuant to the provisions of subsection 34(17) of the *Planning Act*, R.S.O. 1990, c.P.13, as amended, any further notice regarding the proposed amendment is hereby waived.
2. That the application to change the Zoning from "D" (Development) to "C3-Exception" (General Commercial) zone to permit retail and service commercial uses under the "C3" zone category in addition to an outdoor patio accessory to a restaurant or convenience restaurant, in accordance with the zoning standards outlined in Appendix S-7, be approved subject to the following condition:
  - (a) That the applicant agrees to satisfy all the requirements of the City and any other official agency concerned with the development.
3. That the decision of Council for approval of the Rezoning application be considered null and void and a new development application be required unless a zoning by-law is passed within 18 months of the Council decision.

This matter was deferred from the Council meeting of February 25, 2009 to allow for further discussions with the applicant and abutting owners for an access off Latimer Drive.

I-5 AMO – Municipal Action on Bottled Water

Communication dated February 3, 2009 from the Association of Municipalities of Ontario encouraging the use of municipal tap water at municipal events and facilities instead of bottled water.

Mayor Hazel McCallion requested staff to provide an update on the status of bottled water at City facilities. Councillor Carolyn Parrish pointed out that bottled water was convenient and safe, especially with young children and it was a deterrent from drinking too much pop. She suggested a full report on the pros and cons and the tendering process.

Janice Baker, City Manager, responded that jugs of water and glasses were now being used for all meetings instead of bottled water.

Councillor George Carlson suggested that any ban should be viewed carefully as bottled water was needed to be made available at outdoor events, particularly in the summer and more importantly on Canada Day when several thousand people are expected to attend and the City Centre is not properly serviced with water fountains.

Paul Mitcham advised that staff will bring back a Corporate Report, adding that they support encouraging the use of tap water, however, there are outdoor places that do not have water fountains i.e. sports fields, etc.

Councillor Sue McFadden enquired if any steps have been taken with respect to styrofoam cups. Ms. Baker responded that the cafeteria uses china, glasses and cutlery, however, styrofoam cups are used at times esp. when washing facilities are not in place.

Pursuant to Resolution 0050-2009, Council moved into Committee of the Whole in closed session at 1:15 p.m. to discuss the following matters:

In Camera Report #13 – Security of Property - Enersource Strategic Plan and update on Negotiations

A verbal motion by Councillor Pat Mullin to change the order of the item to be discussed in Camera to allow and opportunity for Mayor McCallion to be in attendance. This matter was discussed as the last item in Closed Session.

Councillor Parrish briefly updated Council on the first set of discussions relating to the Draft Shareholder Agreement.

Janice Baker, City Manager, advised Council that Messrs. Craig Fleming and Norm Loberg were not able to attend this Council meeting and hence suggested that the matter be deferred to April 8, 2009 Council to allow them to be in attendance. At the request of some Councillors who would not be present at the April 8, 2009 Council, this matter was further deferred to April 15, 2009. The appropriate individuals from Enersource and Borealis will be invited to the April 15, 2009 meeting to provide updates on the Enersource Strategic Plan and the Draft Shareholder Agreement.

Council requested that they be provided copies of the Draft Shareholder Agreement which was distributed at the Council meeting of December 10, 2008 in advance of the above discussions.

Direction – That copies of the In Camera Corporate Report dated November 26, 2008 from Janice Baker, City Manager, titled “*Update on Status of negotiations with Borealis Capital re. Purchase of Shares*” which includes the Draft Shareholder Agreement (Appendix 3) be re-distributed to all members of Council.
