DATE: September 14, 2011

TO: Mayor and Members of Council
Meeting Date: September 28, 2011

FROM: Brenda R. Breault, CMA, MBA
Commissioner of Corporate Services & Treasurer

SUBJECT: Tax Adjustments Pursuant to Sections 357 and 358

RECOMMENDATION: That the tax adjustments outlined in Appendix 1 attached to the report dated September 14, 2011 from the Commissioner of Corporate Services & Treasurer for applications for cancellation or refund of taxes pursuant to Sections 357 & 358 of the *Municipal Act*, be adopted.

BACKGROUND: Sections 357 & 358 of the *Municipal Act*, 2001, S.O. 2001, c.25 allow a property owner or the Treasurer to make application for the cancellation, reduction or refund of taxes for a number of specific reasons. Taxes may be adjusted when a building has been demolished or razed by fire or if a property has become exempt, changed class or has been overcharged by reason of gross or manifest error.

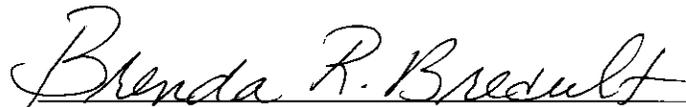

COMMENTS: A total of 22 applications for tax adjustments have been prepared for Council's consideration on Wednesday, September 28, 2011.

The total cancellation or refund of taxes as recommended is \$109,835.20. Appendix 1 outlines the tax cancellations being recommended by property and summarizes by appeal reason the number of applications and tax dollars recommended for reduction.

FINANCIAL IMPACT: The City's portion of the cancellations resulting from the Section 357 and 358 tax adjustments is \$20,806.38.

CONCLUSION: Tax appeals for 2008, 2010 & 2011 taxation years are listed in Appendix 1. The *Municipal Act* requires Council to approve the tax adjustments.

ATTACHMENTS: Appendix 1: Tax Appeals Pursuant to the *Municipal Act* For Hearing On September 28, 2011.

R-2

DATE: September 9, 2011

TO: Mayor and Members of Council
Meeting Date: September 28, 2011

FROM: Brenda R. Breault, CMA, MBA
Commissioner of Corporate Services & Treasurer

SUBJECT: **Apportionment of Taxes**

RECOMMENDATION: That the recommended apportionment of taxes and payments set out in Appendix 1 of the report dated September 9, 2011 from the Commissioner of Corporate Services & Treasurer be approved.

BACKGROUND: Section 356 of the *Municipal Act* allows a local municipality to apportion taxes if land which was assessed in one block at the return of the assessment roll is subsequently divided into two or more parcels and to direct what proportion of any payment of taxes is to be applied to each of the parcels.

COMMENTS: The Municipal Property Assessment Corporation (MPAC) has advised of a number of properties that have been divided into parcels subsequent to the return of the assessment roll. Section 356 of the *Municipal Act* provides for taxes levied on the land to be apportioned to the newly created parcels. In addition, the municipality is to direct what proportion of any payment of taxes is to be applied to each of the parcels.

In accordance with section 356(1) of the *Municipal Act*, taxes levied on the land for the year in which the property is divided and any unpaid taxes for years prior to that year have been

proportionately apportioned to the newly created parcels based on the relative assessed value of the parcels as determined by MPAC. Supplementary taxes levied for the year in which the property was divided have been allocated to the parcel to which they pertain.

All payments applied to the property tax account being apportioned, from the year of the land division to date, must be allocated to the appropriate parcels. Payments have been allocated based on the parcel that payment was intended for or distributed proportionately among the parcels if the payment was intended for the entire block.

A Summary of Apportionment of Taxes listing newly created parcels and the recommended apportionment of taxes and payments is provided as Appendix 1.

Owners of the apportioned lands have been sent notification. Property owners have the right to appeal the decision of Council to the Assessment Review Board.

FINANCIAL IMPACT: Not applicable.

CONCLUSION: There are a number of properties that were assessed in one block at the return of the assessment roll and subsequently divided into parcels. The *Municipal Act* requires Council to approve the apportionment of taxes and allocation of payments subsequent to the division of property.

COUNCIL AGENDA
SEP 28 2011

DATE: September 14, 2011

TO: Mayor and Members of Council
Meeting Date: September 28, 2011

FROM: Paul A. Mitcham, P. Eng., MBA
Commissioner of Community Services

SUBJECT: **Culture Days Mississauga: September 30 – October 2, 2011**

RECOMMENDATION: That the report dated September 14, 2011 from the Commissioner of Community Services entitled "Culture Days Mississauga: September 30 - October 2, 2011" be received for information.

BACKGROUND: Culture Days is a free, interactive celebration of arts and culture from coast to coast to coast. This fall, Canadians will participate in thousands of free events bringing artists and the public together in a celebration of the creative vitality of our communities.

Culture Days was conceived and initiated in response to the growing recognition in Canada and around the world that a vibrant arts and cultural sector contributes directly to a healthy and stable society.

In 2006, inspired by the success and impact of Quebec's annual *Journées de la Culture* event, leaders of Canada's largest arts organizations (as members of The Canadian Arts Summit) commissioned a feasibility study to assess the viability and appropriateness of launching an annual cross-country celebration of arts and culture. In April 2008, the Canadian Arts Summit participants, including the Canada Council for the Arts, agreed unanimously to initiate and support a strategic collaboration to

encourage and facilitate Cultural Days across Canada. This vision became a reality for the first time last year.

The second annual Culture Days will be held across Canada from September 30 to October 2, 2011. Over these three days, Culture Days Mississauga will feature over 90 free, hands-on, interactive activities that invite the public to discover the world of artists, creators, historians, architects, curators and designers at work in our city.

COMMENTS:

Between September 30 and October 2, 2011, local artists are encouraged to open their studios so the public can see them “in action”. This is promoted by the national Culture Days website at culturedays.ca and residents are encouraged to use it to plan their own unique weekend itinerary of visits.

In addition to this, the Culture Division worked in collaboration with staff from various divisions as well as external stakeholders to develop an outstanding roster of activities for residents and visitors to Mississauga. There are four key events coordinated by staff:

- Project Bookmark Canada;
- Take 2;
- Doors Open; and
- Book Fest.

As well as the on-going promotional campaign by the national Culture Days organization, Mississauga received funding from the Ontario Arts Council for advertising, including promotion on Mississauga Transit buses. The Mississauga News is the event media sponsor and has provided on-going promotional support through its publication.

Project Bookmark Canada

Project Bookmark Canada is a not for profit organization which brings together real and imagined landscapes by placing plaques quoting the text from stories and poems in the exact physical locations where those literary scenes are set. The organization has placed plaques in cities across Canada, but never in Mississauga.

R-3(b)

On Friday, September 30th, at 11:00 A.M., Project Bookmark Canada will unveil a plaque at Mississauga Valley Park. The plaque will contain the text of a poem entitled "Song for the Field Behind Mississauga Valley Public School" by Jeff Latosik. Jeff was born in Mississauga and grew up in the Bloor and Cawthra area where he attended Valleys Senior Public School.

Take 2:

Culture Days is an opportunity for Mississauga to showcase local artistic talent and cultural vitality while taking part in a national celebration. Culture Division worked with staff from Mississauga Celebration Square and the Central Library to create a full day of art, music and culture on the City's newest cultural space, Celebration Square, on Saturday October 1, 2011. Artists, authors and performers will offer 7 interactive installations and 20 performances on the Main Stage, Amphitheatre and both Upper and Lower Squares and Noel Ryan Auditorium. A list of activities is provided in Appendix 1.

Artists were chosen for this event through a call for entry which resulted in 60 submissions, of which 27 were selected. In addition to these artists food vendors and inter-active children's activities will line the venue.

Mississauga Book Fest

Mississauga Book Fest will also occur in conjunction with Take 2. Mississauga Central Library is celebrating its 20th anniversary at the current location and has twenty events and activities planned for the day including:

- A presentation by children's author Jeremy Tankard, author of the Grumpy Bird books;
- Exhibitors' Alley buzzing with book sellers, comics, community groups, publishers and illustrators;
- A creative book truck parade led by the Polka Maestre Band;
- Friends of the Library Used Book Sale; and
- The Path of the Book tour of the behind the scenes areas of the library.

Doors Open

This year, Doors Open Mississauga is a part of our Culture Days program. Doors Open allows the explorer in all of us to journey through heritage sites, cultural landmarks and some of the best urban spaces in our city. Over 150 volunteers will participate in this year's event.

Doors Open Mississauga features more than 37 registered sites for tours and activities on October 1st. Twenty four of the sites are new to Doors Open this year, including:

- Ontario Khalsa Darbar – Multimedia Sikh Museum;
- Old Credit Brewing Co. Ltd.;
- Timothy Street House; and
- Leslie Log House.

The Meadowvale Miniature Village is also part of this event and was voted by the public as one of the top 15 sites in Ontario over the past decade.

Cinderella Township

As a very special project, this year's Doors Open Mississauga revisits the 1957 promotional film, "The Cinderella Township" (Appendix 2). The original 13 minute film was created by the Township of Toronto to attract new industries and residents to the area. The film was re-mastered for this year's event by Mississauga film maker, Marco Veltri, to include contemporary footage of the city. The result is both an idyllic and starkly telling document of the great period of infrastructure and industrial development Mississauga has undergone in the past fifty years. The film will screen throughout the month of September on Mississauga Celebration Square. An accompanying exhibition of film stills and contemporary photographs by Marco Veltri is also on view at the Mississauga Central Library. This project is co-presented by the Culture Division, Mississauga Library System and Heritage Mississauga and is supported by Friends of the Library and Metalworks.

Through its role in coordinating these activities Culture Division aims to:

- Foster appreciation and support of the artistic and cultural life that is lived, created and expressed across Mississauga;

R-3(c)

- Stimulate and strengthen a sense of ownership of arts and culture by citizens; and
- Promote direct interaction between creators and citizens, as a key to increasing understanding and appreciation for art and culture.

STRATEGIC PLAN: Culture Days supports the strategic pillar of Belong. This pillar emphasizes the importance of supporting arts and culture as a way of understanding our cultural identity and making people feel welcomed and an important part of the community.

FINANCIAL IMPACT: No funding is required to support September 30 – October 2, 2011 Culture Days Mississauga.

CONCLUSION: September 30 – October 2, 2011 Culture Days Mississauga will benefit both the cultural community and the residents of the city and support the Strategic Plan and the Culture Master Plan.

COUNCIL AGENDA
SEP 28 2011

Meeting Date: September 28, 2011

SUBJECT: Recognition Plaque – Brueckner Rhododendron Gardens

- RECOMMENDATIONS:**
1. That a plaque be installed at the Brueckner Rhododendron Gardens (BRG) to recognize the donation of plant material, and volunteer work contributed by Robert Kernohan; and
 2. That the design and wording of the plaque be approved by the City of Mississauga.

BACKGROUND: In 2008 a Stewardship Committee made up of volunteers was established at Brueckner Rhododendron Gardens to assist the City in rejuvenating and enhancing the horticultural features at the site. Since that time the Brueckner Rhododendron Garden Stewardship Committee, under the guidance of City staff, has carried out numerous projects ranging from the establishment of new beds to routine mulching and weeding. The result has been a significant improvement in the quality of the displays at BRG.

Robert Kernohan has been a key contributor to the Stewardship Committee and also donated a significant amount of plant material to help establish a rose garden at the site, along with further donations of peonies and lilies. Mr. Kernohan has been unable to continue his

work with the committee because of health reasons. City staff have received a request from the Brueckner Rhododendron Stewardship Committee to install a plaque at the garden, to be located at the rose garden to recognize Mr. Kernohan's contributions.

COMMENTS:

Staff believe it is appropriate to recognize the significant contribution Mr. Kernohan has made to the BRG in terms of both volunteer effort and plant material.

Since installation of a plaque of this type falls outside the scope of the Civic Recognition Program, the Property and Facility Naming and Dedication Program, Plaque Program and the Donation Program, staff are seeking approval from Council for this request.

FINANCIAL IMPACT:

The estimated cost for a plaque, installed, is \$1,000. Funding is available in Recreation and Parks Capital Budget PN 10381, Installation of Recognition Plaques.

CONCLUSION:

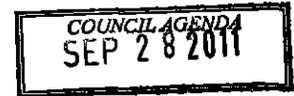

The City is appreciative of the contribution made by Robert Kernohan as a member of the Brueckner Rhododendron Stewardship Committee in terms of work in the BRG and the contribution of plants to the garden. Staff believe it is appropriate to recognize Mr. Kernohan with a plaque and are asking Council to approve the request for a plaque from the Stewardship Committee.

This is an extract of the Planning and Development Committee meeting held on September 20, 2011.

2. PUBLIC MEETING. Information Report – Rezoning and Draft Plan of Subdivision Applications to permit 13 detached dwellings on a common element condominium private road at 1551, 1559, 1569 Cormack Crescent and 1556 Marionville Drive, east of Dixie Road, south of the Queen Elizabeth Way. Owner: Sedona Lifestyles (Rometown) Inc. Applicant: Brutto Consulting.

Councillor Chris Fonseca called this public meeting to order at approximately 7:05 p.m. and read the staff recommendation.

Mr. Claudio Brutto of Brutto Consulting, representing Sedona Lifestyles Development reviewed the subject application and described the surrounding land uses. Mr. Brutto advised that to the north of the subject land is the Star Academy Private School, detached dwellings to the south and east, and detached dwellings and the Dixie Outlet Mall across Dixie Road to the west.

Mr. Brutto advised that the subject rezoning application was submitted in August 2009 and included the proposed development of 13 townhouses and 5 detached dwellings. In July 2010, the application was amended to include 17 detached dwellings on a common element condominium road. The current application, submitted in June 2011, has been further amended to include the reinstatement of 1556 Marionville Drive, and the creation of the proposed 13 lots on a common element condominium road.

Mr. Brutto advised that Cormack Drive being the service road of Dixie Road, access to the subject site has been an issue and a challenge. Mr. Brutto further advised that the original application was made two years ago to introduce an access along Cormack Crescent, to address the concerns of the community on Marionville Drive, however, the MTO did not support the proposal for an access to the subject lands on Cormack Crescent. In view of this, the applicant has had to look for an alternative access to the subject site. Mr. Brutto advised the Committee that the Environmental Assessment on the subject lands is likely to occur in 2012.

Mr. Brutto advised that one of the critical issues was the interface of the lots on Rometown Drive, which are substantially large 60, 70 and 80 feet single family dwellings.

Mr. Brutto advised that the applicant has submitted a Heritage Impact Statement (HIS) for the property at 1559 Cormack Crescent which recommends protection of the house

and stable under the *Ontario Heritage Act* through Designation as a condition of Council approval.

The following residents who were present in the chamber addressed the Committee:
Mr. Don Champagne, Vice President, Homeowners Association for Orchard Heights.
Mr. Gary Smith
Mr. Lawrence Pinkney
Mr. Dudley Briggs
Ms. Debra Moy
Mr. John Dormo
Mr. Austin Abbott
Mr. Mark Machinek
Mr. Hank Musel

Mr. Don Champagne, Vice President of the Orchard Heights Homeowners Association advised the Committee that, considering that the proposed application was deemed complete in July 2011, there was insufficient time for the local community to express their views on the application before the September 20, 2011 public meeting.

Mr. Gary Smith, resident, addressed the Committee expressing concerns regarding the size of the proposed lots relative to the existing lots. Mr. Smith also expressed concerns regarding the preservation of existing neighbourhood character and compatibility with the surrounding features, landscape and intended character of the area. Mr. Smith further expressed concerns regarding the precedent setting potential that more of the similar type of developments could occur within the Orchard Heights community. Mr. Smith also expressed concerns regarding the inadequacy of the number of visitor parking spaces proposed and the resultant increase of vehicle parking on adjacent streets.

Responding to a question from Councillor Pat Saito regarding how the proposal fits into the designation and existing zoning, Mr. David Breveglieri, Development Planner advised that the subject land is in a “Residential Low Density I” zone, which permits detached, semi-detached and duplex dwellings. Mr. Breveglieri further confirmed that the smallest lot has approximately 45’ frontage and the largest lot is approximately 65’.

Responding to a question from Mayor Hazel McCallion regarding the status of the Dixie Road/QEW interchange improvement and its effect on the proposed development, Mr. Steve Barrett, Manager of Transportation Asset Management advised that the MTO has indicated the commencement of an Environmental Assessment Study in 2012. Mr. Barrett further advised that the MTO will have to provide an approval for this proposed development to proceed further.

September 20, 2011

Councillor Nando Iannicca commented on the size of the access to the subject property.

Mr. Lawrence Pinkney, resident, addressed the Committee expressing concerns regarding the concept plan, synonymous of a private enclave, providing a precedent for future similar enclaves that would culminate into the balkanization of a homogenous Orchard Heights neighbourhood.

Responding to a question from Councillor Pat Saito, Mr. Pinkney advised that at the last community meeting, residents were informed by the developers of the potential for the proposed development to be gated. Mr. Pinkney further expressed concerns of the proposed houses being within a private area.

Responding to a further question from Councillor Pat Saito regarding why this was a condominium and not a regular roadway with a cul-de-sac, Mr. Claudio Brutto of Brutto Consulting, advised the Committee that because of the nature of the subject lands, it would not be possible to have the required depth of the lots on either side of a municipal road.

Mr. Brutto further advised that the proposed development will provide pedestrian access through the proposed development, which will enable access to the Dixie Outlet Mall and Dixie Road. Mr. Brutto also advised the Committee that the MTO has indicated to the developers that \$250 million has been earmarked for the Dixie Road/QEW Interchange improvement.

Mr. Dudley Briggs, resident, addressed the Committee expressing concerns regarding the width of the common element condominium road, handling of garbage pick-up and snow removal, access for emergency vehicles, and parking in the adjacent streets of Marionville Drive, Rometown Drive and Glenwatson Drive. Mr. Briggs also expressed concerns regarding the impact on future developments in the area, by the Hanlan Feedermain and the reduction of the width of Dixie Road.

Ms. Debra Moy, resident, addressed the Committee expressing concerns regarding access on to Marionville Drive and also the implications of the planned Dixie Road/QEW interchange improvement on the proposed development and the properties fronting onto Cormack Crescent. Ms. Moy further expressed concerns regarding plans for the future development of lands adjoining the subject property owned by Sedona Lifestyles Inc.

Councillor Pat Saito commented on two fairly similar developments, and how policies

relating to ingress/egress to and from regional and arterial roads are applied to such developments.

Ms. Moy further expressed concerns regarding the rezoning of the subject lands to R16, and suggested that the feasibility of access on to Dixie Road be investigated as an alternative.

Mr. John Dormo, resident, addressed the Committee expressing concerns about the future development of the lands adjacent to the subject property. Mr. Dormo further expressed concerns about the impact on properties fronting onto Cormack Crescent, subsequent to the future Dixie Road/QEW interchange improvements.

Councillor Katie Mahoney commented on Council's obligations, under the *Planning Act*, to process all development applications through the public consultation process.

Mr. Dormo further suggested that Council consider restricting the number of dwellings to 13, as contained in the current subject proposal for development.

Mr. Austin Abbott, resident addressed the Committee expressing concerns about the adequacy of the number of proposed visitor parking spaces and the resultant increase of vehicle parking on adjacent streets.

Mr. Mark Machinek, resident, addressed the Committee expressing concerns regarding the size of the proposed lots and the height of the proposed dwellings relative to existing lots and dwellings in the neighbourhood. Mr. Machinek further expressed concerns regarding the private condominium road and inadequate parking in the neighbourhood.

Responding to a question from Mr. Machinek regarding a precedent being created by the subject proposal for similar future potential developments, Mr. David Breveglieri, Development Planner advised that each application is processed, evaluated and assessed based on its own merits.

Responding to a question from Mr. Hank Musel, resident, regarding updates on meetings between City staff and other agencies, including MTO, on the planned Dixie Road/QEW interchange improvements, Mr. Steve Barrett, Manager, Transport Asset Management advised that comments from MTO on the subject application is contained in the subject staff report under consideration. Mr. Barrett further advised that City staff work very closely with the MTO and local stakeholder agencies, and Council is kept informed through the relevant committee on updates received. Work similar to that of the Dixie Road/QEW interchange involves a comprehensive process and often takes a

couple or more years.

Mr. Ray Poitras, Manager Development South and the Chair, Councillor Chris Fonseca advised Mr. Abbott that comments dated July 21, 2011, received from the MTO are included in Appendix I-8 of the staff report dated August 30, 2011, currently under consideration.

Mr. Steve Barrett, Manager Transport Asset Management advised that the Environment Assessment study will determine the alternative access.

Mayor Hazel McCallion advised that the staff report indicates that the MTO has indicated that they have initiated a preliminary design and Class B Environmental Assessment for the reconstruction of the QEW and Dixie Road interchange, however, the degree of impact to the proposal will not be known until a preferred design alternative has been completed.

Mr. Musel sought clarification as to why access on to Cormack Crescent is being denied for the proposed development.

Mr. Steve Barrett, Manager Transport Asset Management advised that properties fronting onto Cormack Crescent will be impacted by the planned Dixie Road/QEW interchange improvement, but businesses can continue to operate until a preferred design alternative is completed.

Councillor Pat Saito advised that, as the site is within the MTO's permit control area, comments received from the MTO indicate that a MTO Building and Land Use Permit is required prior to commencement of construction. Councillor Saito further advised that once the applicant provides more details with respect to the subdivision, MTO will provide further comments, if warranted.

Councillor Jim Tovey commented on the community meetings held in Ward 1, along with staff from the Region of Peel and other agencies.

Councillor Jim Tovey moved the following amendment motion which was voted on and carried.

3. PUBLIC MEETING Information Report – Official Plan Amendment, Rezoning and Draft Plan of Subdivision Applications to permit 118 townhouse units and 15 live/work units on a common element condominium private road at 565 Lakeshore Road East, north side of Lakeshore Road East, west of Cawthra Road.. Owner: 2025214 Ontario Limited. Applicant: Glen Schnarr and Associates Inc.

Councillor Chris Fonseca called this public meeting to order at approximately 8:25 p.m. and read the staff recommendation.

Mr. Glen Broll of Glen Schnarr and Associates Inc, acting as agent for 2025214 Ontario Limited (Country Homes), reviewed the subject application and described the surrounding land uses, consisting of detached and semi-detached dwellings beyond the CNR Mainline to the north, commercial establishments beyond Lakeshore Road East to the south, a retail commercial plaza and high rise apartment buildings to the east, and multiple tenant industrial building and Cooksville Creek to the west.

Mr. Broll further advised that the significant importance of this application is the conversion of business employment lands to residential medium density. A comprehensive employment land review study was done by the City as part of the Mississauga Plan Review to ensure conformity with the Provincial initiatives and to fulfill *Planning Act* requirements. This study identified the subject lands as being part of an area of “Managed Change Outside Existing Employment Areas” and includes vacant sites that are remnant or otherwise may be constrained and unlikely to develop as employment lands, and that may be suitable for other uses.

Mr. Broll advised that in the summer of 2009, floodline mapping was revised by Credit Valley Conservation (CVC) to reflect the reconstruction and upsizing of the Cooksville Creek culverts at Lakeshore Road East, and based on the revised mapping, the proposed development can achieve flood free access at the proposed signalized intersection.

Using Power Point slides, Mr. Broll explained the proposed development concept plan which was also presented at a community meeting on September 7, 2011, organized by the Ward 1 Councillor, Jim Tovey. Mr. Broll advised that traffic issues along Lakeshore Road East raised at this community meeting have been addressed in the subject application. Mr. Broll further advised that the redevelopment of the Lakeshore Road East/Hampton Crescent intersection has been reconfigured to allow access into the commercial site as well as the residential site, and explained the proposed traffic management plan for this intersection.

Information Report – Official Plan Amendment, Rezoning and Draft Plan of Subdivision Applications to permit 118 townhouse units and 15 live/work units on a common element condominium private road at 565 Lakeshore Road East, north side of Lakeshore Road East, west of Cawthra Road.

September 20, 2011

Commenting on the proposed development, local Ward Councillor Jim Tovey suggested that staff investigate the appropriateness of securing public benefits under the provisions of Section 37 of the *Planning Act*.

Responding to a question from Mayor Hazel McCallion regarding the impact of the New Mississauga Official Plan (MOP) on the subject proposed development, Mr. Glen Broll advised that policies under the New MOP will be considered for this application when the New MOP is adopted by the Region of Plan.

There were no residents present in the audience who wished to address the Committee on the subject application.

Councillor Jim Tovey moved the following amendment Motion which was voted on and carried.

PDC-0048-2011

1. That the Report dated August 30, 2011, from the Commissioner of Planning and Building regarding the application to amend the Official Plan from "Business Employment" to "Residential - Medium Density I", "Mainstreet Commercial" and "Greenbelt" and to change the Zoning from "E2" (Employment) to "RM6-Exception" (Townhouse Dwellings on a CEC-Private Road), "C4-Exception" (Mainstreet Commercial), "B" (Buffer) and "G1" (Greenbelt - Natural Hazards) to permit 118 townhouse units and 15 live/work units on a common element condominium private road, under files OZ 03/038 W1 and T-M06006 W1, 2025214 Ontario Limited, 565 Lakeshore Road East, north side of Lakeshore Road East, west of Cawthra Road, be received for information.
2. That the correspondence dated September 19, 2011 from Zool Kassum, Bayfield Management Limited along with letter dated September 14, 2011 from M.J. Amini, Manager Trillium Inspection, Testing and Constructing Services Limited, be received.
3. That Planning and Building Department staff evaluate the appropriateness of securing public benefits under the provisions of Section 37 of the *Planning Act*, and make appropriate recommendations within the Supplementary Report.

Attn: City of Mississauga

To Whom it May Concern:

We the residents of Greyowl Point would like the Peel Region Water Main Replacement to investigate the relocation of the fire hydrant in our court that was recently relocated approximately 20 ft. from the original location. The concerns we have are that we live in a court that has four parking spaces for the eight residents and because of the relocation of the hydrant we only have two parking spaces for the homes.

The original location of the hydrant allowed people from parking near the hydrant which was on a curve of the road. This made the entrance to the court more accessible to vehicles. The new relocation eliminates that parking area and creates a parking area on the curve which creates a danger to our residents. Also, the owners of 1184 will not be able to back out of their driveways safely as cars will be parked directly in front of their home on the opposite curve.

Parking on our court is very limited. Visitors will have to park on the main Golden Orchard Road which will create another issue.

The original fire hydrant had been located on the curve approximately 40 years without creating any problems on our court. By the relocation we have lost 2 parking spaces on our court and created a dangerous situation for our residents.

We would like this issue addressed and rectified.

Thank you .

The Animal Rights Club is an organization at Glenforest Secondary located in Mississauga, Ontario. This club strives to promote the ethical treatment of animals through our various fundraising and awareness campaigns. This year we have launched a meaningful campaign to alert the public about the inhumane practice of shark finning. In this package, we have included:

- The Petition
- An image of our campaign

Shark finning is widespread, and largely unmanaged and unmonitored. Shark specialists estimate that **100-150 million** sharks are killed for their fins, annually. The shark is often still alive when it is tossed back into the water. Frustrated by the fact that it is now unable to swim, the shark slowly sinks toward the bottom where it is eaten alive by other fish. Several species have reduced to about 90 percent since the 1970s, and if this practice continues, then there are chances that most of the shark species will become extinct soon because the reproduction rate is much lower than the finning rate.

The price we will be paying is huge and horrendous. What is really tragic is that we clearly realize the serious consequences, nevertheless, driven by greed and desire, nobody wants to give up on this multi-billion dollar industry. Within the next few decades, almost all shark species will become extinct and their extinction will tremendously affect the marine ecosystem in a negative way – the stability of marine ecosystem will be seriously threatened. Therefore, it is time for a change!

The Animal Rights Club in Glenforest Secondary School has always been trying its best to make a difference. A local school like this is making every effort to change something for better, what about Canada as a whole?

Sincerely,

Wahyishkone S

P-2(a)

Being on top of the aquatic food chain, the marine ecosystem is completely dependent on sharks, and thus requires our awareness and concern. We hope that you will be able to raise this issue for debate as soon as possible. Animal Rights Club greatly appreciates your time and attention to this important matter. Thank you.

MAYORS OFFICE

**Subject: Notice of Completion of Transit Project Assessment Process
Renforth Gateway Hub
Environmental Project Report**

Dear Mayor:

Metrolinx, an agency of the Province of Ontario, is helping transform the way the region moves by championing and delivering mobility solutions. As we invest in the future and build stronger transit infrastructure to meet the growing needs of the region, a number of projects are underway, including many involving our GO Transit division. GO Transit service continues to be expanded and improved to provide more choices for travel across the province, meet increasing customer demand, and attract more transit users in the future.

Further to the Notice of Commencement issued on May 18th, 2011, GO Transit, a Division of Metrolinx, has completed an Environmental Project Report in accordance with *Ontario Regulation 231/08* for the introduction of exclusive bus lanes linking the future Mississauga Bus Rapid Transit (BRT) Station with major roads in the area. This will allow buses to efficiently access Highway 427, Renforth Drive, and Eglinton Avenue. This project is referred to as the Renforth Gateway Hub.

I-1(a)

- 2 -

The environmental impact of this transit project was assessed and an Environmental Project Report has been prepared according to the Transit Project Assessment Process as prescribed in *Ontario Regulation 231/08*, Transit Projects and Greater Toronto Transportation Authority Undertakings.

The Notice will appear in the following newspapers:

- *The Mississauga News*: Wednesday, September 14 and Friday, September 16, 2011
- *The Etobicoke Guardian*: Thursday, September 15 and Thursday, September 22 2011

NOTICE OF COMPLETION

Environmental Project Report

Renforth Gateway Hub – Metrolinx

THE PROJECT

Metrolinx, an agency of the Province of Ontario, is helping the way the region moves by championing and delivering mobility solutions for the Greater Toronto and Hamilton Area (GTHA). As we invest in the future and build stronger transit infrastructure to meet the growing needs of the region, a number of projects are underway, including many involving our GO Transit division. GO Transit service continues to be expanded and improved to provide more choices for travel across the province, meet increasing customer demand, and attract more transit users in the future.

GO Transit, a Division of Metrolinx, has completed an Environmental Project Report in accordance with Ontario Regulation 231/08 for the introduction of exclusive bus lanes linking the future Mississauga Bus Rapid Transit Station with major roads in the area. This will allow buses to efficiently access Highway 427, Renforth Drive, and Eglinton Avenue. This project is referred to as the Renforth Gateway Hub.

THE PROCESS

The environmental impact of this transit project was assessed and an Environmental Project Report has been prepared according to the Transit Project Assessment Process as prescribed in Ontario Regulation 231/08, Transit Projects, and Greater Toronto Transportation Authority Undertakings.

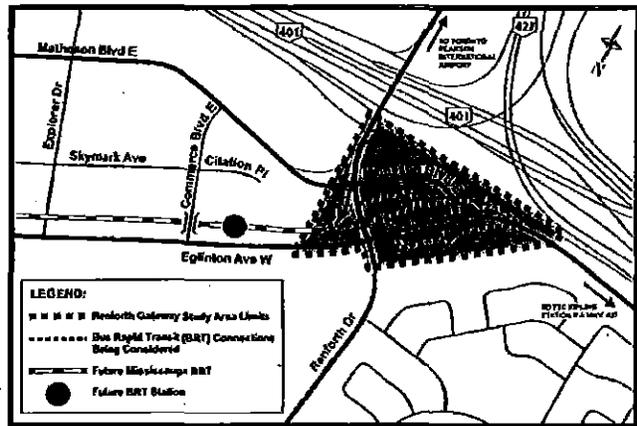

The Environmental Project Report for the Renforth Gateway Hub is now available for a 30-day review period starting September 14, 2011 at the following locations:

There are circumstances where the Minister of the Environment has the authority to require further consideration of the transit project or impose conditions on it. These include if the Minister is of the opinion that:

- the transit project may have a negative impact on a matter of provincial importance that relates to the natural environment or has cultural heritage value or interest
- the transit project may have a negative impact on a constitutionally protected Aboriginal or treaty right

Before exercising the authority referred to above, the Minister is required to consider any written objections to the transit project that he or she may receive within 30 days after the Notice of Completion of the Environmental Project Report is first published.

If you have discussed your issues with the proponent and you object to the project, you can provide a written submission to the Minister of the Environment no later than October 14, 2011 to the address provided below. All submissions must clearly indicate that an objection is being submitted and describe any negative impacts to matters of provincial importance (natural/cultural environment) or Aboriginal rights.

MAYORS OFFICE

SEP 15 2011

Her Worship Hazel McCallion
Mayor
The Corporation of the City of Mississauga
300 City Centre Drive
Mississauga, Ontario
L5B 3C1

Dear Mayor McCallion:

Thank you for your letters regarding public sector compensation. I sincerely apologize for the delay in responding.

The government's compensation restraint policy has frozen compensation structures for non-bargaining employees for two years. For employees who bargain collectively, the government is respecting current collective agreements. When agreements expire, the government is working with transfer payment partners and bargaining agents to seek agreements of at least two years' duration that do not include net compensation increases. The fiscal plan provides no funding for compensation increases for future collective agreements.

This strategy has shown results. From April 2010 to July 2011, average annual wage increases in the Broader Public Sector (BPS) averaged 1.5 per cent. This is less than the private sector average of 1.9 per cent, the federal government average of 1.7 per cent and the municipal government average of 2.4 per cent, over the same period.

The Ontario Provincial Police (OPP) play an important role in our communities across the province keeping our families safe - we are supportive of the work that they and all police do. It has been a long-held policy that the OPP should be the highest paid force in Ontario. This latest OPP agreement puts them on an even playing field with other large police forces which they had fallen behind. Then, this is followed by two years of zero - as per our policy. The fact that the government negotiated a two year freeze should be a significant consideration for arbitrators and during negotiations with municipal forces. Unfortunately, the City of Toronto's recent agreement with its police force includes wage increases well above zero - and, indeed, well above the provincial average settlement - and, therefore, has now set the high watermark for police settlements in the province.

.../cont'd

I appreciate the challenges that all public sector employers and bargaining agents face in reaching settlements that demonstrate restraint while protecting public services. Everyone who is paid through taxpayer dollars is being asked to do their part.

Thank you again for writing.

Sincerely,

COUNCIL AGENDA
SEP 28 2011

September 12, 2011

Mayor, City of Mississauga and Members of Council
C/O The City Clerk, City of Mississauga
300 City Centre Drive, Mississauga, ON L5B 3C1

Your Worship and Members of Council:

This September, Trillium Health Centre and The Credit Valley Hospital welcome 54 undergraduate medical students from the newly-opened Mississauga Academy of Medicine at the University of Toronto (U of T) Mississauga.

These students begin the first of a four-year program. Practical placements at Trillium (24) and Credit Valley (30) will expose students to diverse, interactive clinical experiences in primary, generalist and highly specialized care; ambulatory and inpatient care; acute and chronic care; and surgical, medical and psychiatric care.

By 2014, a total of 216 undergraduates will be experiencing community-based learning at our three hospital sites. By 2020, a total of 302 postgraduates will be training as family practice residents (36) and specialty residents (266).

Trillium Health Centre and The Credit Valley Hospital must provide the proper space and amenities that these medical students and resident trainees need.

We respectfully submit to Council our joint funding request of \$3 million in support of the capital development of the medical education facilities at both our hospitals. Our total local share commitment is estimated at \$20 million between our two organizations.

The funding support from the City of Mississauga will assist in providing for teaching, medical student and administrative space on-site at both Hospitals. We need to transform medical space into educational space such as clerk and resident on-call rooms, clinical learning labs, simulation labs, library services, computer labs and administrative support space.

As you know, the creation of the Mississauga Academy of Medicine, a partnership between Trillium Health Centre, The Credit Valley Hospital, the U of T Mississauga and the U of T Faculty of Medicine, was truly a momentous step – for health care, medical education, for the community. The Mississauga Academy of Medicine further builds upon the City of Mississauga’s world-renowned reputation in life science.

Historically, the City of Mississauga has always been a leader in developing, sustaining and supporting partnerships. In fact, the first gift ever given from a municipality to a university was from the City of Mississauga to the University of Toronto Mississauga. Since then, this gift has spurred on many other gifts from municipalities to universities and colleges across the province.

Today we ask for the opportunity to stand in front of Council to ask for your leadership in health care and medical education through supporting the Academy of Medicine at The Trillium Health

BACKGROUND

The U of T Faculty of Medicine is among the largest in Canada and one of the best medical schools in the world. As part of our affiliation with the Academy of Medicine, our hospitals will provide a practice location for a full 20 percent of the total number of U of T medical students.

The Mississauga Academy of Medicine will provide high quality education to future physicians and attract a new calibre of teaching physicians to lead clinical practices. Experience shows that graduates tend to practise in close proximity to where they train and contribute significantly to our community. As you know, our successful Family Medicine Teaching Units have trained residents who have chosen to practise here.

“The Academy, with its focus on community-based medical education, is an ideal fit for Mississauga and the surrounding communities. With our commitment to create a community of optimal health for all citizens, we are delighted this new academy will benefit the well-being of everyone who lives and works here.” – Mayor Hazel McCallion

The Academy represents a tremendous opportunity to spur on research and innovation by attracting more life sciences organizations to Mississauga, which is already home to 400 such companies. Trillium Health Centre and The Credit Valley Hospital are committed to furthering knowledge through applied clinical research and to sharing knowledge through teaching. In this way, we contribute value to the knowledge economy, economic growth and well-being.

Trillium Health Centre and The Credit Valley Hospital are the region’s health care leaders. As emerging academic health centres, we are integrators, enriching the health sciences network of Mississauga. We envision truly world class health care that improves health status, addresses pressing health care problems, and impacts the entire region.

As your strategic plan notes, “...there is an identified need for Mississauga to strengthen its educational and R&D infrastructure to better align with its targeted sector strengths.” The Mississauga Academy of Medicine will help the City fill this gap. Innovative research and education are also strategic priorities for our hospitals. There is widespread enthusiasm among our care providers for involvement in applied clinical research. Last year the number of research projects at Trillium grew by 21 percent.

The region that we serve is home to well over one million people. Together, our hospitals deliver more babies than any other in the province; we have the second largest and fastest-growing concentration of older adults in Ontario and we serve a richly diverse, multicultural population. All of these factors mean that we see a great deal of complex illness and chronic disease.

COUNCIL AGENDA
SEP 28 2011

TO: Mayor and Members of Council
FROM: Crystal Greer, City Clerk
DATE: September 20, 2011
SUBJECT: Council Vacancies on Committees

At the time that Council declared its intention to fill the Ward 5 vacancy on Council, the matter of filling any vacancies left on Council Committees was deferred until after the By-election.

The following vacancies were created, as a result of the Ward 5 vacancy:

- Advertising Review Panel - requires one additional Council member to be appointed
- Integrity Commissioner Nominating Committee – requires one additional Council member to be appointed
- Mississauga Public Library Board - requires one additional Council member to be appointed

In addition, the former Ward 5 Councillor was appointed to the Economic Development Advisory Council (EDAC), however, a replacement is not mandatory. The Economic Development Advisory Council requires one member of Council to be appointed, and currently Councillors Saito and McFadden are appointed to sit on EDAC.

Direction is sought from Council with respect to the appointment of replacements on these Committees.
